Falconer School

Achieving the extraordinary together

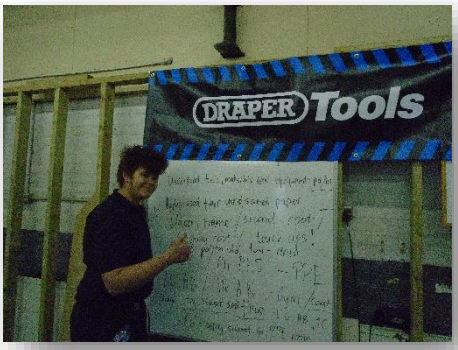
Headteacher's Weekly Blog Friday 11 June

Dear Parents and Carers,

With the warmer weather now here, could I please ask you to remind your son of the following:

- Bring a water bottle to school everyday to ensure he stays hydrated
- Apply sun screen at home before coming to school on sunny days
- Try to sit in the shade where possible

We are hoping to hold a School Celebration Day on Friday 16th July with parents and carers invited to join us in our celebrations. We are awaiting further information from the government regarding the Covid-19 regulations as any arrangements will be dependent on the current restrictions lifting. I will inform you as soon as possible of the arrangements.



A huge thank you to Draper tools who have kindly donated £1,000 worth of tools for our Construction lessons in Years 10 & 11. The students and staff are very happy to use such lovely, new equipment!

In Science lessons the students have been enjoying seeing the stick insects grow and develop following a frustrating wait for them to hatch due to the cool weather we experienced in May.

Also in Science, Mr Board invited me to a Year 10 lesson were they were learning to identify the 'culprit' who had left a mess in the science classroom by analysing the blood type.

The warmer weather has also allowed us to explore the outdoor environment more frequently with our boys with visits this week to the Bushey Rose Garden, King George Recreation Ground and Dunstable Downs for some kite flying!

Have a lovely weekend.

Mrs Ash

Headteacher
